## Final TPM in Larissa.

We met this time in Larissa (Greece), hosted by our partner Innovation Hive, to celebrate our last meeting of the TIPS project, specifically the final TPM. The meeting was very fruitful thanks to the great work being done by all stakeholders. In the meeting, we finalized all the details so that all our results are perfect, both the website and the learning platform, as well as the video game and the comics. We are less time to enjoy it all!

## Next Multiplier Event in Spain

On Thursday, November 30, the Multiplier Event will take place in Burgos, Spain. In which the TIPS project will be explained to professionals, parents and caregivers. In addition, the website, the learning platform and the final results of the project, the video game and the interactive comics with which it is intended to enhance the social and communication skills of children with ASD will be shown.

## Multiplier Event in France and Greece

IDL organized a Multiplier Event in France and Greece with the collaboration of Universite Cote d'Azur and the Aristotle University of Thessaloniki. In France, the event was held in Nice, under the context of the MSc SmartEdTech's Intensive Week event, In Greece, the event was held at the School of Journalism and Mass Communications. Overall, more than 50 participants attended the two events.

Participants were instructional design students. The objective and different learning materials and activities were presented. In addition, participants were asked to reflect on the impact of such technologies and outcomes in the design of their own MSc thesis, which includes the proposal of instructional design solutions on a topic of their choosing.
